THE PROBLEM & THE SOLUTION

A Better Way to Find In-Home Care

Transitioning home from the hospital or rehab facility shouldn't be stressful or financially overwhelming. Traditional home care agencies charge steep hourly markups—making private care difficult to afford for many families.

A Place to Connect is a direct referral network that cuts out the agency middleman. We connect you directly with independent, experienced local caregivers so you get quality care at rates that fit your family's budget.

WHY FAMILIES CHOOSE US

- **Save 30% to 50%**
Pay caregivers directly at standard rates without agency markup fees.
- **Total Choice**
Interview and select the exact caregiver who fits your needs, language, and schedule.
- **Vetted Profiles**
View verified credentials, CPR certifications, and background check badges.
